BUFFALO HUNTING – GAN GAN - EAST ARNHEM LAND

HUNT DESCRIPTION

There is no doubt that the Asiatic “Water” Buffalo is one of the most desirable big game trophies in the world today, and Australia is the number one destination for this species. Australia is the last place where you can see free-ranging herds of these great bovines. It is one of those “must-do” hunts. Hunt Australia has been the preeminent Buffalo-hunting safari operator in Australia for over 30 years. We have earned our reputation by securing the best hunting areas, enabling us to supply the largest possible, truly wild-and-free Buffalo.

Our primary wilderness Buffalo hunting area is located in East Arnhem Land, approximately a 3-hour drive from Nhulunbuy on the Gove Peninsula of the Northern Territory. The hunting areas are described as super remote. There are no roads in the hunting area, no cattle, no fences, and no other people, except at the local aboriginal village where the airstrip is located. Here we have a diversity of habitats – from coastal beaches to freshwater floodplains to eucalypt woodland to monsoon forest. We have a strong Buffalo herd on this area of more than 4,000 animals, and each year our trophy average for the bulls taken tops the magical 100 SCI average. You never know what you will see around the next bend in the track. This is primarily a spot and stalk type hunt, but we will do some walking and tracking as the situation dictates.

You will be accommodated at our comfortable tented base camp, which is situated on a beautiful billabong. Our camp is fitted out with modern facilities, including 240 volt power supply, hot showers, flush toilets, comfortable beds, linen, daily clothes washing, etc. Access to some of our new unexplored areas is by crossing one of the billabongs or lakes by boat to a waiting 4WD vehicle. This is truly exciting hunting in the “real” Australian Outback. Most clients in 2013 took their trophy on the first or second day of their hunt. Many clients choose to utilize any extra days hunting with their guide for additional Buffalo trophies, Wild Boar hunting, or fishing. Excellent fishing is available right from our base camp.

HUNTING SEASON AND PRIME HUNTING DATES

RECOMMENDED EQUIPMENT AND CLOTHING

The Buffalo available in our hunting areas are larger than African Buffalo and are much more difficult to kill. They can become aggressive and are very dangerous once the shooting starts. We strongly recommend that you use only a large caliber rifle with only heavy premium grade, soft point ammunition. A scoped 375 H&H is the minimum requirement; however, a 416 Remington or 458 Winchester Magnum or similar caliber is perfect for the job. Lightweight, dark camouflage cotton clothing is recommended with a wide brimmed hat, sunglasses, and comfortable walking boots. Insect repellent and sunscreen are also suggested.
