Desert Bighorn Sheep is one of the most prized species sought by international hunters. Our outfitter has exclusive rights to numerous private ranches in Sonora where you will hunt the mainland Desert Bighorn.

These areas have produced 100% free-range rams sized from 150" to 165" B&C on average. Bigger rams are occasionally taken but are not the norm. Hunts are conducted mostly on foot, although trucks, ATV’s, or mules may be used.

We offer 10 full days of hunting, but we find we have averaged between 5 to 6 days during previous seasons. The outfitter provides quality equipment for camping with everything that is necessary for the comfort our clients deserve. All hunters are accompanied by a qualified professional hunter who speaks English and ensures the client’s safety as well as the success of the hunt.

A rewarding and successful hunt is not physically easy, so it is of great help if our hunters are in good physical condition. Despite the challenges of the hunt, we have yet to experience conditions under which the hunters have returned without a trophy. We here at Huntin’ Fool® have personal, on-the-ground experience with this outfitter, and we highly recommend this hunt.
